Flag: Follow up

Good Morning Jennifer, John, Ed S. and Ed L,

Attached to this email you will find the final draft final version of the Maryland Permit Quality Review Document for your review. EPA conducted this review in calendar year 2017 and while it may have taken us time to move this document to a draft final version, MDE and EPA have been working together on the findings and observations since the onsite review concluded.

I wanted to be sure to provide you the opportunity to review this draft before it is finalized. I am hoping that you will have some time in the next two weeks to provide any final thoughts or comments to this document. If you would like to discuss any of the content or information in the document before December 28, 2020, please let me know. If you do have any comments, please feel free to use the track changes tools in Microsoft Word to make those comments or send them directly to me with a cc to the EPA contact listed on this email (Rebecca Crane, Angela McFadden, Jessica Martinsen and myself). I am hoping that you can review this by December 28, 2020; however, if you require additional time, please let me know.

Thanks in advance for time and understanding.

Sincerely,
Michelle

Michelle Price-Fay, Chief
